MACHIZUKURI-SUISHIN-KA
(COMMUNITY LIFE ENHANCEMENT DIVISION), OGAKI CITY

Immunization of Children Aged 5 to 11 Years Old

Those between the ages of 5 and 11 can now receive the novel coronavirus vaccine.

Children account for an increasing proportion of the cases of COVID-19 infection in Japan. Please read the explanation and consider with your child, whether or not to receive the vaccine.

① Vaccination eligibility

- Children aged 5 to 11 years
- In particular, vaccination is recommended for children with underlying medical conditions that place the high risk of serious illness, such as chronic respiratory diseases and congenital heart disease.

② Vaccine to be used:

Pfizer's vaccine for ages 5 to 11 years. Vaccine is designed for children.

Usually, a total of two doses are given three weeks apart.

③ Vaccination fee: Free
